Education

HKUST(GZ)	AIMS Lab for Multimodal and Scientific Intelligence · Ph.D. Student Advisor: Prof. Jun Xia Research: Multimodal Learning, AI4Science, etc. Data Science and Analytics Thrust	2025.09 – Present
Southeast Univ.	PALM Lab for Pattern Learning and Mining · M.Eng., Electronic Information (3-year) Advisors: Profs. Mofei Song and Min-Ling Zhang Research: Multimodal Learning Academic Scholarship (3 times) Huawei Scholarship	2021.09 – 2024.07
ECJTU	School of Information & Software Engineering · B.Eng., Software Engineering (4-year) GPA: 4.09/4.5 Rank: 1/256 (top 1%) Intermediate Qualification in Computer Software Recommended admission to Southeast University Academic Scholarship (8 times)	2017.09 – 2021.06

Research and Engineering Projects

▶ Visual Localization and 3D Ranging Project Integrating 3D Point Clouds and 2D Images in Power Grid Scenarios	SEU and State Grid Role: multimodal data annotation, 2D–3D point-line matching, camera pose estimation and optimization algorithms	2021.12 – 2022.12
▶ Spatial Modeling SLAM Technology for Indoor Dynamic Modeling	SEU and CMRI Role: multimodal VSLAM module, deep-algorithm improvement and deployment, dense point-cloud mapping system	2021.06 – 2022.05

Industry Experience

▶ Huawei (Shenzhen) · 2012 Laboratories · HiSilicon · Ascend Solution Development Dept.	2024.10 – 2025.09 Role: Algorithm Engineer ; worked on AI-chip scheduling algorithm optimization and AI-model operator acceleration. Implemented automated parameter tuning for QoS control to improve operator performance. Awarded Huawei Star of Tomorrow and NEO Outstanding Trainee .
▶ Huawei (Shenzhen) · 2012 Laboratories · HiSilicon · Turing Solution Development Dept.	2023.07 – 2023.09 Role: Multimedia Algorithm Engineer Intern ; supported an intelligent-driving enablement project, including environment setup, source-code compilation, HiSilicon–ROS–vehicle communication, and LiDAR/camera perception. Deployed on the Ascend 1911 development board. Awarded Outstanding Intern .

Research Publications and Competitions

▶ “MM-Spectrum: Multimodal Multi-spectral Molecular Structural Elucidation with a Stable MoE Framework”	Independent first-author paper; published at ICML 2026 (CCF-A)	
▶ “MM-Point: Multi-View Information-Enhanced Multi-Modal Self-Supervised 3D Point Cloud Understanding”	Independent first-author paper; published at AAAI 2024 (CCF-A)	
▶ “NMRGym: A Comprehensive Benchmark for Nuclear Magnetic Resonance Based Molecular Structure Elucidation”	Third-author paper; published at KDD 2026 (CCF-A)	
▶ “FragSpectra: Hierarchical Multi-Scale Fragment-Enhanced Molecular Understanding with Multi-modal Spectra”	Independent first-author paper; 2026 (CCF-A; under review at NeurIPS 2026)	
▶ “MS-Point: Multi-Modal Hierarchical Spectral Learning for Point Cloud Understanding”	Independent first-author paper; 2026 (CCF-A; under review at NeurIPS 2026)	
▶ “LoReC: Rethinking Large Language Models for Graph Data Analysis”	Fourth-author paper; 2026 (CCF-A; published at ICML 2026 Workshop ; under review at NeurIPS 2026)	
▶ “Towards Reasonable Molecular Structural Elucidation from Infrared Spectroscopy with Chemical Feedback”	Third-author paper; 2026 (CCF-A; under review at NeurIPS 2026)	
▶ CAAI Social Computing Innovation Competition – Urban Traffic Flow Prediction		2nd Place; RMB 3,000
▶ iFLYTEK 1024 Developer Competition – Multimodal Audio-Video Speech Recognition Challenge		3rd Place; RMB 10,000
▶ iFLYTEK 1024 Developer Competition – Crowd Image Recognition and Counting		1st Place; RMB 1,000
▶ iFLYTEK 1024 Developer Competition – Urban Road Traffic Flow Prediction with Spatiotemporal Dependencies		2nd Place; RMB 3,000
▶ “Huawei Cup” 19th China Graduate Mathematical Modeling Competition		National Second Prize
▶ Baidu “PaddlePaddle Cup” AI Innovation Competition – Social Network Big Data		First Prize; RMB 3,000

Appendix: Honors and Awards

► Professional Competitions:

- **2023 Baidu Netdisk AI Competition – Watermark Removal Model Sprint, Honorable Mention (solo team)**
Organizer: Baidu Netdisk, Baidu PaddlePaddle
- **2023 CAAI BDSC Social Computing Innovation Competition: Algorithms and Models, Honorable Mention (solo team)**
Organizer: CAAI, Zhejiang Big Data Development Administration, Zhejiang University, Alibaba
- **2023 Energy and Power Industry Campus Elite Challenge, Computer Category, Honorable Mention (2-person team)**
Organizer: Chinese Society for Electrical Engineering, China Energy Research Society, State Grid Electric Power Research Institute
- **2022 “China Optics Valley–Huawei Cup” 19th China Graduate Mathematical Modeling Competition, National Second Prize (3-person team, team leader)**
Organizer: Chinese Society of Academic Degrees and Graduate Education, CAST Youth Science Center, Huazhong University of Science and Technology
- **2022 CAAI Social Computing Innovation Competition and Yuhang District Data Innovation Competition, 2nd Place (2-person team, team leader)**
Organizer: CAAI, Zhejiang Big Data Development Administration, Yuhang District People’s Government of Hangzhou, Zhejiang University, Alibaba
- **2022 iFLYTEK A.I. Developer Competition – Crowd Gathering Recognition Challenge Finals, 1st Place (2-person team, team leader)**
- **2022 iFLYTEK A.I. Developer Competition – Global Football Match Outcome Prediction Challenge Finals, 2nd Place (solo team)**
- **2022 iFLYTEK A.I. Developer Competition – Multimodal Audio-Video Speech Recognition Challenge Finals, 3rd Place (solo team)**
- **2022 iFLYTEK A.I. Developer Competition – Table Parsing Challenge Finals, 5th Place (solo team)**
- **2022 iFLYTEK A.I. Developer Competition – Chinese Dialogue Text Matching Challenge Finals, 2nd Place (solo team)**
- **2022 iFLYTEK A.I. Developer Competition – Voice Cloning Challenge Finals, 3rd Place (solo team)**
- **2022 iFLYTEK A.I. Developer Competition – Urban Road Traffic Flow Prediction with Spatiotemporal Dependencies Finals, 2nd Place (2-person team, team leader)**
- **2022 MathorCup University Mathematical Modeling Challenge – Big Data Competition, Graduate Group, National First Prize (3-person team, team leader)**
Organizer: Chinese Society of Optimization, Overall Planning and Economic Mathematics
- **2022 Baidu “PaddlePaddle Cup” Chongqing First AI Innovation Competition – Social Network Big Data Track, First Prize (solo team)**
Organizer: Baidu PaddlePaddle, Chongqing Institute of Electronics, AI Technology and Application Committee of China Institute of Communications
- **2022 4th Belt and Road International Big Data Competition and 8th Baidu–Xi’an Jiaotong University Big Data Competition, Honorable Mention (solo team)**
Organizer: UNESCO IKCEST, Baidu, Xi’an Jiaotong University
- **2022 Baidu Search First Technology Innovation Challenge, Honorable Mention (solo team)**
Organizer: Baidu Search, Baidu PaddlePaddle, Peking University
- **2022 13th APMCM Asia-Pacific Mathematical Modeling Competition, Graduate Group, National Third Prize (3-person team, team leader)**
Organizer: APMCM Committee, Beijing Society of Image and Graphics
- **2022 “Jinan Supercomputing Cup” 4th Shandong College Student Big Data Intelligence Competition, Third Prize (solo team)**
Organizer: Shandong Provincial Department of Education, Shandong Department of Industry and Information Technology, Jinan Supercomputing Technology Research Institute, National Supercomputing Center in Jinan
- **2022 Jiangsu Graduate Mathematical Modeling Research Innovation Practice Competition, Second Prize (solo team)**
Organizer: Jiangsu Category-I Science Graduate Education Steering Committee, Nanjing University
- **2021 “Huawei Cup” 18th China Graduate Mathematical Modeling Competition, National Third Prize (3-person team, team leader)**
Organizer: Chinese Society of Academic Degrees and Graduate Education, CAST Youth Science Center, South China University of Technology
- **2021 MathorCup University Mathematical Modeling Challenge – Big Data Competition, Graduate Group, National Second Prize (3-person team, team leader)**
Organizer: Chinese Society of Optimization, Overall Planning and Economic Mathematics
- **2021 12th APMCM Asia-Pacific Mathematical Modeling Competition, Graduate Group, National Second Prize (3-person team, team leader)**
Organizer: APMCM Committee, Beijing Society of Image and Graphics
- **2020 MathorCup National Undergraduate Mathematical Modeling Competition – Big Data Competition, Undergraduate Group, National Second Prize**
Organizer: Chinese Society of Optimization, Overall Planning and Economic Mathematics
- **2020 8th “Discovery Cup” National College Internet Software Design Award, AI Track, Third Prize**
Organizer: Education and Examination Center of the Ministry of Industry and Information Technology
- **2019 7th “Discovery Cup” National College Internet Software Design Award, Internet Development Track, Third Prize**
Organizer: Education and Examination Center of the Ministry of Industry and Information Technology
- **2018 and 2020 National English Competition for College Students, National Third Prize (2 awards)**
Organizer: College Foreign Language Teaching Steering Committee; College Foreign Language Teaching and Research Association

► Honors and Scholarships:

2020 **National Scholarship**; 2018 and 2019 **National Encouragement Scholarship** (2 times); undergraduate **President’s Scholarship** (top 0.1%); 2024 **Huawei Scholarship** (top 1%).

2021 candidate for the **National Upward and Kind-hearted Good Youth** by the Central Committee of the Communist Youth League (Diligent Study and Progress); 2021 and 2022 Southeast University **Graduate Second-Class Scholarship** (2 times).

2023 Southeast University **Graduate First-Class Scholarship**; undergraduate **Special Scholarship** x2 (top 1%); undergraduate **First-Class Scholarship** x2 (top 5%).

Undergraduate **Outstanding Graduate**; undergraduate **Outstanding Graduation Design (Thesis)**; university **Merit Student** x2; university **Outstanding Student Cadre** x2; university **Outstanding Communist Youth League Member**.
